## Product & Delivery Manager

**Professional Summary:** Product & Delivery Manager with nearly four years of experience owning digital products and cross-functional initiatives from discovery and requirements through development, launch and iteration across health-tech, wellness and edtech startups. Experienced in product strategy, roadmap ownership, client and user research, PRDs, sprint planning, delivery coordination, product analytics, workflow automation and third-party/API integrations. Worked closely with engineering, design, operations, clinical teams and external partners to translate customer and business needs into scalable product workflows while managing priorities, dependencies and delivery. Strong healthcare domain experience across patient journeys, doctor-facing products, care operations and digital health workflows.

## EXPERIENCE

### Independent Consultant | Product, Growth & AI Operations

*Remote | Aug 2025 – Jun 2026*

- Worked directly with founders at two early-stage startups on **product, growth, sales operations and hiring**, turning open-ended problems into clear priorities and execution plans.
- Evaluated **AI and workflow automation** opportunities across customer, sales and internal processes, comparing tools and helping teams decide which use cases were worth implementing.
- Reviewed product journeys and operating workflows to identify usability gaps, repetitive processes and opportunities for product improvement or automation.

### Betterway | Program Manager – New Categories (Founder's Office)

*India's leading Ayurved Multi-Speciality Centre, Gurgaon | Apr 2025 – Aug 2025*

- Worked directly with the founder across product, growth and operations; conducted market research, evaluated new-category opportunities and translated open-ended priorities into execution plans.
- Identified Mental Wellness as the strongest opportunity and led the **0→1 launch**, defining the care model, patient journey, product requirements, pricing, workflows and unit economics; generated **₹4L revenue with positive CM2**.
- Worked across **product, technology, clinical and operations teams** to design digital patient workflows spanning onboarding, automated check-ins, clinician follow-ups, WhatsApp journeys and in-app therapy, reducing handoff friction and improving operational efficiency.
- Built the care-delivery function from scratch, hired and coordinated psychologists, psychiatrists and doctors, and trained junior doctors; improved **30-day retention by 25%, service uptake by 40% and patient experience to 95%**.
- Built dashboards to track patient outcomes, retention, revenue and clinician performance, giving teams visibility into follow-up priorities and performance.

### Happy Club | Co-Founder and Founding Product Manager

*Anonymous mental health community platform, Hyderabad (Remote) | Jan 2024 – Nov 2024*

- Interviewed therapists and potential users to understand barriers to formal mental-health support and used the insights to define the MVP value proposition, anonymous listener model and user journey.
- Built and launched the MVP, defining moderation rules, support workflows and community operating processes around trust, safety and accessibility.
- Grew the community to **2,300+ followers** and enabled **3,000+ anonymous support interactions** while hiring and leading a 10-person team.

### Academically | Product Manager (First Product Hire)

*Ed-tech for global healthcare professionals, Sydney (Remote) | Jun 2023 – Dec 2023*

- Owned **product roadmap, requirements and delivery** across the LMS, internal systems, chatbots, payments and third-party integrations, converting learner and business needs into PRDs, prioritised requirements and sprint-ready work.
- Conducted research with learners, educators and internal teams to identify friction across the learning journey and used insights to customise the LMS and prioritise product and workflow improvements.
- Led the end-to-end website/platform migration from WordPress to a **Laravel, MySQL and Astro.js stack**, coordinating leadership and outsourced engineering across requirements, milestones, dependencies, testing and launch while working within budget.
- Launched content/data-management systems, payment workflows, chatbots and integrations, improving **operational efficiency by 40%**.
- Led product and growth initiatives that increased website traffic from **3K to 15K**, **tripled leads and doubled revenue**.

### Curelink | Assistant Product Manager (B2B2C Health-tech Platform)

*Health-tech, white-labelled holistic care, Gurgaon | May 2022 – Jan 2023*

- Owned product and customer experience across **100+ doctor accounts** and their patients, gathering recurring client and care-team pain points and translating them into product requirements, reporting solutions and scalable workflows.
- Led end-to-end delivery of broadcasting, query-management and doctor-dashboard products with engineering, operations and business teams, coordinating requirements, prioritisation, testing and rollout; increased **DAU by 70%, MAU by 40% and adoption by 50%**.
- Worked with analysts in Metabase and Mixpanel to track engagement, adoption and operating metrics, using insights to support product prioritisation and post-launch iteration.
- Led re-subscription and lifecycle initiatives that generated **₹2 lakh+ in weekly revenue**, increased patient flow by 30% and improved conversion from **32% to 47%**.
- Built a patient-care CRM and automated diet-chart workflow, reducing query-resolution TAT from **72 hours to 3 hours** and improving operating efficiency by 50%.

### UpGrad | Program Associate

*South Asia's largest higher ed-tech company, Mumbai (Remote) | Jul 2021 – Jan 2022*

- Built learner feedback loops and partnered with product and technology teams to resolve LMS and support issues, improving learner satisfaction by **35%**.
- Managed program delivery and stakeholder relationships across **30+ industry experts and 2,000+ learners**, maintaining communication, resolving delivery issues and earning a **5/5 stakeholder rating**.
